

# MuseKat

Museums Made Fun with Miko!

[musekat.com](http://musekat.com)

## Scavenger Hunt Details

- **Museum:** American Museum of Natural History, New York City
- **Target Ages:** 5-10 year-olds
- **Duration:** 45 minutes - 1 hour
- **Location:** First floor (starts in the Halls of Gems & Minerals)

*"Hi there! I'm Miko the Meerkat, and I love discovering amazing things at the American Museum of Natural History. Will you join me on a special treasure hunt? Let's find these incredible objects together!"*

**Get started at [musekat.com](http://musekat.com)**

## How to Play

1. Find each treasure on your mission.
2. Take a photo of the exhibit & museum label with MuseKat.
3. Hear a customized audio story from Miko. (Bluetooth headphones recommended!)
4. Check off the box when you're done.

Curiosity calls!

# Treasures to Collect on Your Mission

Look for these treasures on your exploration of the **first floor** of the museum! (And use Miko to learn more about anything else that you get curious about along the way.)

## 1. The Magical Purple Cave 💎

Look for a giant rock that's split open to show beautiful purple crystals inside! This sparkly treasure is called amethyst!

## 2. The Iron Giant from Space 🌍

Can you spot the biggest space rock in any museum? It's called Ahnighito, and it's as heavy as three elephants!

## 3. Lucy's Special Story 🦴

Help me find Lucy! She lived a very long time ago and walked on two legs just like we do. Look for her special bones and a picture showing what she might have looked like.

## 4. The Ancient Tree Story 🌳

Find the giant circle that shows us how old a tree was! Can you and your grown-up count some of its rings together?

## 5. The Giant Mosquito 🦟

Look for a huge mosquito that's bigger than a cat! It has long spiky legs and looks ready to fly away.

## 6. The Swimming Giant 🐳

Look up high to find the biggest animal that ever lived - a beautiful blue whale! It looks like it's swimming right above our heads.

## 7. The Moose Friends 🐾

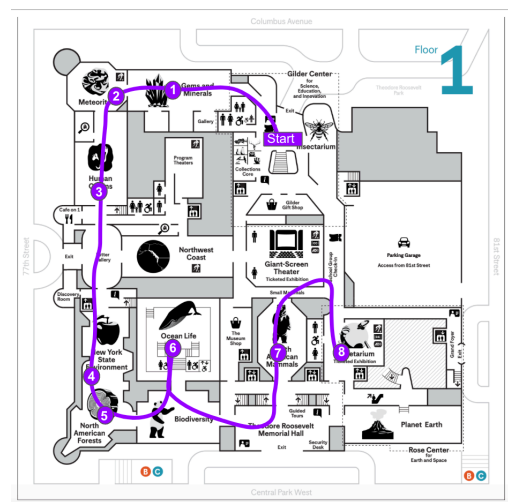

Find two big moose with amazing antlers who are having a contest in Alaska! Can you spot the female moose watching them?

## 8. The Moon's Picture 🌙

Find a beautiful photo of the Moon with all its craters (they look like little bowls)! This photo was taken during the Apollo 15 mission.

## Tips for Your Trip

- **Use this map** to plan your route.
- **Special Meerkat Mission:** After the hunt, check MuseKat for a special learning mission you can do at home.

**Share Your Feedback:** MuseKat is still in alpha mode and we need your feedback! Please share your thoughts in the survey at [musekat.com/survey](https://musekat.com/survey)
